## HEAR TESTIMONY OF EYEWITNESS TO RAGED TODAY

### Hysterious Individual Scheduled for Appearance Before Grand Jury.

### ELIEVE SOLUTION OF JERSEY CRIME NEAR

### Persons Under Suspicion Cannot Hide, Is Statement of Prosecutor Stricker.

### INTERVIEW TWO WOMEN

Effective Officer Declines to State Whether Confession Related to Case.

[By Associated Press.] NEW BRUNSWICK, N. J., Oct. 22.—With the mysterious eyewitness to the murder of the Rev. Edward W. Galt and his wife, Mrs. Galt, scheduled for appearance before the grand jury tomorrow, the authorities are promising to lay their cards on the table and have permitted it to be known that the grand jury will hear evidence which, they say, will result in the indictment of a man and a woman.

### Hulls to Resist Implications.

It is known that every member of the Federal Reserve board has been prepared to resist direct or indirect implication in the case. Mr. Hull is thoroughly conversant with the facts of the case and has been made aware of the fact that he will be indicted if he is found guilty.

## Tickless Clock Is Boon Promised to Humanity

[By Associated Press.] BERLIN, Oct. 22.—The tickless clock is one of the latest inventions of a German scientist who has been delving in the field of oscillation. A selected audience of government officials, scientists and newspaper men today witnessed a demonstration of inventions of this nature perfected by Heinrich Schiefel, an engineer of the Laboratory of Four Schwingungstechnik, of Berlin. A tickless clock, which operates without a lever, was one of a number of special mechanisms Schiefel used to show the technical importance of oscillating power for high-speed power engines and in the propulsion of ships, airplanes and gliders. A German-American corporation has been founded in Berlin for world-wide exploitation of these discoveries. Fred A. Britten, of Illinois, an American Congressman, is said to be actively interested in the invention. Today's demonstration was featured by the use of an oscillating motor, which is claimed to be the first producing motor perfect in producing vibrations of a connected flap or disc synchronously with the movements of the motor. The promoters contend that the invention means a great saving in power.

## G.O.P. IN A PANIC, SAYS CORDELL HULL

### Democratic Chairman Asserts Republicans Are "Playing Last Cards."

### HARDING TRIES TO AID

### Declares Cabinet on Stump in Effort to Save Situation.

[By Associated Press.] WASHINGTON, Oct. 22.—Harding's major political parties are confident of their chances in the November elections, their chairman declared in statements here today.

Mr. Hull, chairman of the Republican National Committee, said that the Republicans are in a panic, that the situation in many districts is desperate and hopeless in others.

### Republicans Panic-Stricken.

The Republicans are panic-stricken and are playing their last cards. This is the Democratic National Committee's statement.

## BONAR LAW WORKS SUNDAY IN LONDON TO SELECT CABINET

### Conservatives Meet Today to Elect New Leader of Party.

### VARIOUS FACTIONS ARE CONSIDERING FUTURE

### Prince of Wales Present When Lloyd George Offered His Resignation.

### PRESS ALIGNMENT UNCERTAIN

Believe Reginald McKenna, Former Chancellor of Exchequer, Will Be in New Ministry.

[By Associated Press.] LONDON, Oct. 22.—There was no Sunday for Andrew Bonar Law today, as he is the head of the Conservative party.

Several party leaders conferred with Bonar Law at his residence, while the political offices were filled with members of Parliament discussing the situation which remains complex beyond the memory of the old members.

The Conservatives of both houses will meet tomorrow to elect Bonar Law, leader of the party, after which he will be in a position to accept the king's mandate to form a government.

This will be a meeting of the Conservative party, all the members are free to attend, including those who supported Austen Chamberlain in the election of 1921.

There is great interest in how many of this faction will appear, and thereby enroll themselves in the regular organization.

### Prince of Wales Present.

The Conservative Unionists, who supported Mr. Chamberlain, are organizing a dinner for tomorrow night, at which their future will be considered.

A striking innovation is reported by the Daily Express, which says the Prince of Wales was with the King when Bonar Law offered his resignation, and that he is expected to be in the future office.

This is in contrast with the treatment of the King's father by Queen Victoria, who had him removed from all part in public affairs, even when he was a middle-aged man.

The most important announcement of the week-end is that Reginald McKenna, former Chancellor of the Exchequer, will preside at the Conservative meeting to be held in the city of London. This naturally is taken to mean that Mr. McKenna, who has been a lifelong Liberal and was chairman of the Liberal Unionist party during the first year of the war, will be a candidate supporting Bonar Law, and it is taken for granted, if he will be offered his old position.

### Nationalists in Curious Position.

The survivors of the Irish Nationalist party, notably T. P. O'Connor, who has represented the Irish in the House of Commons since 1885, and Joseph Devlin, who represented the Irish in the House of Commons since 1890, are in a curious position.

Practically the only plank in the Nationalist party has been home rule for Ireland, and with Ireland about to become a free state, the plank is pulled from under them.

## "SLEIGHT OF HAND" STYLES INTRODUCED IN PARIS BY AMERICAN

### Mrs. Davidson, Wife of Famous Sculptor, Wins Smart Set With Innovation.

[By Associated Press.] PARIS, Oct. 22.—"Sleight of hand" styles introduced by Mrs. J. O. Davidson, American wife of the famous sculptor, who has just launched a dressmaking establishment, has captured instant favor with the smart set.

Her dressmaking establishment, which she has opened in the Rue de la Paix, is a success, and the fact that one style can be worn in two different ways, with a few quick motions, has transformed her from an afternoon to an evening gown.

Even the color and the whole lines of the marvelous gown are changed. The marvelous effect is achieved by the manner of draping lined fabric, by which the outer garment can be worn inside or outside, giving a capelike effect by a simple adjustment of the sleeves and collar.

During a dinner at Cro's last night, Mrs. Davidson amazed the guests by changing the color as well as the lines of her gown without leaving her table, and within the space of a few moments.

The sculptor's wife is the first prominent American woman to enter the Parisian fashion world and act as her own mannequin in the sumptuous establishment opened by her.

Her customers, who are mostly French, are enjoying the novelty of being treated as guests instead of mere prospective buyers.

## Predicts Round Trip to London in Twelve Hours

[By Universal Service.] SELFLEDGE FIELD, MOUNT CLEMENS, MICH., Oct. 22.—Business will be possible for a tourist in New York to leave at 6 o'clock in the morning, arrive in London or other European metropolis in time for luncheon, transact business there and return before dark, declared Brigadier General William Mitchell, assistant chief of the army's air service and holder of the world's record for speed, prior to his departure for the East.

General Mitchell predicted that within a comparatively short time, a flying machine will be developed which will hurtle through space at the terrific speed of 500 miles an hour, capable of carrying half a dozen passengers and their baggage.

Only one barrier now rests between this achievement and its success, and that is the inability to perfect a device which will supply sufficient oxygen to pilot and passengers.

## EUROPE REPORTED ON VERGE OF WAR

### Conditions Are Dangerous, Is Warning of Special Commission.

### SETTLEMENT NEEDED

### Difficulties Should Be Adjusted on Basis of Mutual Agreement.

[By Associated Press.] BURLINGTON, N. C., Oct. 22.—Conditions in Europe are so dangerous, a special commission has warned, that a settlement is needed.

The commission, which was appointed by Governor Harrison of this State, to represent North Carolina on the International Trade Commission, assembled by the Southern Commercial Congress, has returned with the commission to the United States, after an extensive tour of inspection in Great Britain, France, Belgium, Holland, Germany, Switzerland and Italy.

A comprehensive report is being prepared by the commission for presentation to the annual convention of the Southern Commercial Congress, to be held in Chicago November 22, and for presentation to the Congress of the United States in December.

The American commission also has reported on the Southern Commercial Congress, in 1921, and on the Federal farm loan act, and the commission in the present report, submitted clear-cut recommendations.

It is stated, the results of first-hand observations on the fundamental problems in the international relations that react as barriers to direct trade and financial intercourse.

As a preliminary statement the commission has authorized a brief announcement of conclusions on the fundamental problem that each country has found to be the absolute priority that must be removed before the minor questions will admit of solution. Part of the statement adopted unanimously by the commission and given out for publication here follows:

"Notwithstanding the treaty of Versailles and the low economic level of European nations, Europe is more nearly on an equal footing with the United States than at any period immediately preceding the World War.

"The Belgian compromise is purely temporary, and unless some solution of the problem is reached prior to the expiration of the six-month period, the condition of Europe will be infinitely worse." The report says that a settlement must be reached if the peace of the world is to be restored and guaranteed, then two basic considerations must be understood and accepted.

First, the debts of the nations cannot be canceled, and the nations must ultimately pay their obligations, with dignity and honor.

## ADMIRAL DE HORSEY IS DEAD AT COWES

### ADMIRAL DE HORSEY IS DEAD AT COWES

[By Associated Press.] LONDON, Oct. 22.—Admiral Sir Algernon de Horsey died at Cowes today.

Admiral de Horsey has been deputy-governor of the Isle of Wight since 1913. He was 95 years old. He was a naval officer during the famous invasion of the Falkland Islands in 1833, and the Fenian raids on the lakes of Canada in 1836.

He was commander of the British fleet in the West Indies from 1873 to 1875, and commander-in-chief of the Pacific fleet from 1875 to 1879. During his command in the Pacific his flagship, the Shah, engaged the Peruvian rebel iron-clad Huascar, and forced it to surrender to the Peruvian authorities.

The question of the admiral's action was debated in Parliament, but De Horsey was justified for what he did. The admiral was placed on the retired list in 1882.

## MRS. EDITH FORD, 92, DIES IN BALTIMORE

[Special to The Times-Dispatch.] BALTIMORE, MD., Oct. 22.—Mrs. Edith F. Ford, widow of John T. Ford, founder of Ford's Opera House, died today at her home here.

Her death followed an illness of ten days, and was due to pneumonia. She was 92 years old.

Mrs. Ford was born in England and came to America with her husband in 1850. She was a member of the family said, and manifested interest in the happenings of the day.

Mrs. Ford was Miss Edith Andrews of Richmond, Va. She married John T. Ford, Sr., in 1849.

## FUTURE OF GUARD TO BE DISCUSSED AT AN EARLY DATE

### Secretary of War Weeks Has Called Conference at Washington.

### OFFICERS INSTRUCTED TO BE PRESENT

### Belief Is Organization Will Be Torn to Pieces and Reconstructed.

### FRIENDS ARE DISTURBED

General Readjustment of Allowments Foreseen Is Cause of Alarm.

[By Frederick Evans.] WASHINGTON, Oct. 22.—The future of the National Guard is being discussed at an early date, the Secretary of War, Mr. Weeks, has called a conference of general staff and guard officers, which has just been called by the Secretary of War, and which will meet in a few days in Washington to consider a readjustment of organization to the National Guard Service.

Assuming that Secretary Weeks will be guided by whatever recommendations the conference may see fit to make, it seems certain that the effect upon the guard will be highly important, and may result in a "stamp out" of the guard back into the regular army, which has been called by the Secretary of War, and which will meet in a few days in Washington to consider a readjustment of organization to the National Guard Service.
